A **community forum** is a chance for people to share their views on an important issue. The goal of this event is to give the Deaf community a chance to discuss needs and priorities related to their health and disability. Information from this session will be used by the MA Department of Public Health to develop a Health Needs Assessment Report.

Topics to consider: issues that affect your experience in healthcare; barriers that prevent meeting health needs; health insurance; transportation; finding doctors that meet your needs; and more.

This event is a partnership between:

The Massachusetts
Department of Public Health

LURIE INSTITUTE FOR DISABILITY POLICY

DEAF

Space for this event is generously donated by **The Learning Center
